# Safety Helmet with Protective Peak with Ratchet Type Adjustment

**SKU: PN521**

## Key Features

Triple-corrugated shell ensures enhanced impact resistance.

Slide slots enable quick attachment of face and hearing protection accessories.

Deflector design reduces and evenly distributes impact from falling objects.

Adjustable ratchet-style chin strap and soft, non-irritant headband for superior comfort.

Ratchet type adjustment.

## Certification:

IS 2925:1984

## Description

The PN521 Safety Helmet (<https://karamonline.com/head-protection/safety-helmets>) offers premium head protection (<https://karamonline.com/head-protection>) with a robust design and ratchet-type adjustment for a secure and comfortable fit. Triple corrugation on the outer shell enhances impact resistance, while the crown deflectors evenly distribute the force of falling objects, reducing injury risks. Slide slots enable easy integration of face and hearing protection accessories. The helmet includes an adjustable chin strap and non-irritant headband for prolonged comfort, making it ideal for high-risk environments such as construction sites, industries, workshops, and roadworks. It is designed to meet the rigorous demands of both safety and usability.

**Warranty:** 1 year from the date of invoice against any manufacturing defects.

**Ideal for use**
